So much has happened at the United Nations over the summer, laying the groundwork for our Fall agenda. Join the NGO Committee on Ageing/NY for its monthly Programme Meeting and find out more about what we've been up to, including participation at the High-Level Political Forum, the Open-ended Working Group on Ageing and other international fora. Hear about our plans for the coming few months and how our members can participate. Hear also from our colleague and special guest Amal Abou Rafeh about United Nations initiatives, where ageing fits into the bigger picture, and what's coming up in the next several months. There will be time set aside for questions, comments, and insights.
